

eduroam – Connecting Apple OSX (MacBooks)

1. Click on the wireless symbol by the dock at the top of the screen.
2. Choose eduroam.

3. Enter your username and password: There are two options, read this bit carefully:

- 1: If you are setting up your device to use at a PETROC Campus

Set Username to your Petroc username without @petroc.ac.uk added on to the end. For example: ab12345

- 2 If you have a Petroc account and are setting up your device to use at another institution that you are visiting that provides eduroam:

Set Username to your Petroc username with @petroc.ac.uk added on to the end. For example: ab12345@petroc.ac.uk

4. You should now be connected to the eduroam wireless network.

5. Load Safari and browse to the link below. It will take you to the Petroc Eduroam web page:
www.petroc.ac.uk/support-help/eduroam

Once this is installed you are ready to start web browsing.
